DR DECISION REHEARSAL
Powered by ProDio

Rehearse the consequences before you make the decision.

THE PROBLEM

Most leadership teams debate decisions. The best ones rehearse them.

Every day, companies lose millions in high-stakes decisions gone wrong. They don't fail in the analysis. They fail in the second-order effects: employee resistance, public outcry, social media, customer reaction or the competitor's counter-move.

Decision Rehearsal is a risk-free way to immerse your team in decision-making exercises, and let them pre-experience the consequences; real-world first and second-order effects leveraging neuroscience principles of imagination and mental simulation.
